[community_name]

Community Research Workshop

The goal of this workshop is to discuss ***how things are*** and ***how things should be*** on the community when it comes to online research.

2 hours to collaborate

6-12 people

Created by

University of Minnesota
Driven to Discover®

Session Agenda:

Introductions: 15 min
On Zoom
- Welcome
- Jamboard walkthrough
- Icebreaker

Act 1 (How Things Are): 20 min
On Zoom and Jamboard
- Get into breakout rooms
- Sort community values by importance
- Discuss the shared themes. How do they relate to a healthy community? How do they relate to challenges the community faces?

Regroup & Share: 10 min
On Zoom
- Share 2 of your group's values and why these are important to the community

Break: 5 min

Community Research: 15 min
On Zoom
- Examples of Community Research
- Community level harms/benefits

Act 2 (How Things Should Be): 20 min
On Zoom and Jamboard
- Get into breakout rooms
- Brainstorm pros/cons of community research on the community

Act 2 Part 2: 20 min
- Move stakeholders to the map
- Discuss what each stakeholder should consider when making decisions about research on the community

Regroup & Share: 10 min
On Zoom
- Share 2 notes from each activity and why they are important to the community

Wrap-up: 5 min

Introductions

Share: Preferred name/ pseudonym & your favorite aspect of the community

Waffles vs. Pancakes

As a group, decide whether the world is going to keep waffles or pancakes. The other will be obliterated from the universe. Anyone can advocate for their favorite choice, but the majority vote will make the final decision.

ACTIVITY 1: What values are important to the broader community?

Examples

Less Important → More Important

Share:
2 Values + Why

Instructions:

1. Rank the example community values by importance.
2. What values are missing from your list? Create new sticky notes.
3. Why are some values more important than others?

20 min

Group 1 - Breakout Room 1

Group 1 - Breakout Room 1

ACTIVITY 2.1: What benefits/harms should future research strive for/avoid on the community?

Examples

Benefits	It's Complicated	Harms

Share:
2 Notes & Why

Instructions:

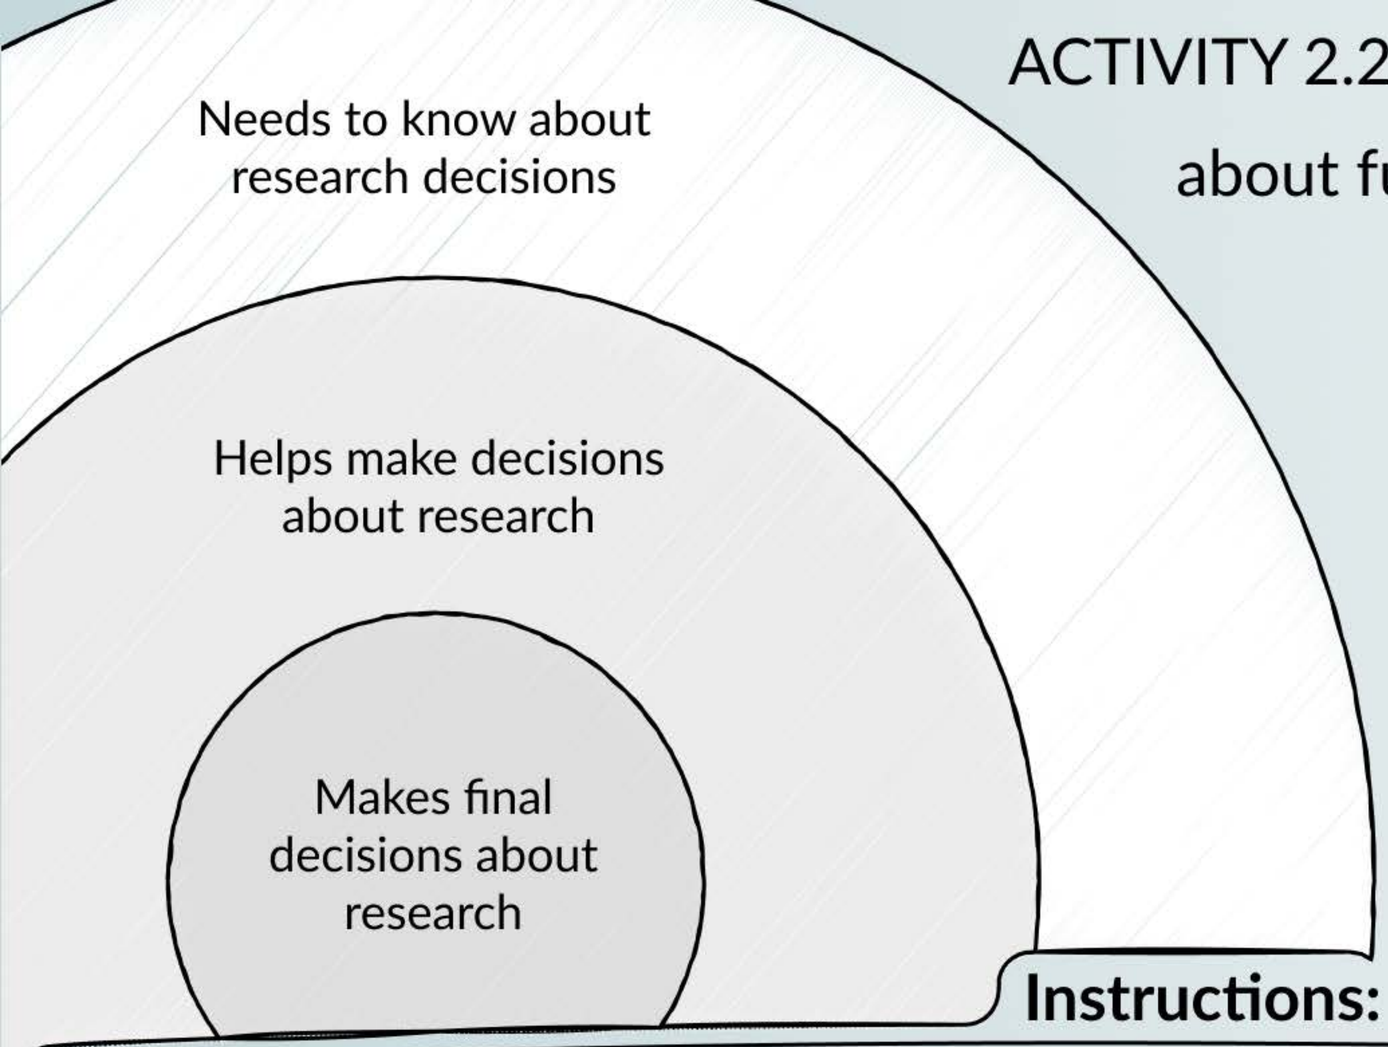
1. Place the examples on the scale or edit them to better align with what's important to the Community. Why do they fit there?
2. Brainstorm more ways research could affect the community and place them on the scale.

20 min

Group 1 - Breakout Room 1

Group 1 - Breakout Room 1

ACTIVITY 2.2: How should people make decisions about future research on the community?



Examples

Share:
2 Notes & Why

Instructions:

1. Move stakeholders (*yellow sticky notes*) onto the map. Why do they belong here?
2. What should they consider when making decisions? (*record on blue sticky notes*)
3. How should stakeholders get the information they need to make these decisions?
4. Who is missing from the picture?

20 min
